About Starlight Children's Foundation

Starlight delivers happiness to seriously ill children and their families. Since 1982, Starlight's programs have positively impacted more than 16 million critically, chronically, and terminally ill or injured children across the US. With your help, more kids and their families will enjoy Starlight Virtual Reality, Starlight Hospital Wear, Starlight Gaming, and other Starlight programs at a children's hospital or facility near you. Starlight Programs

Starlight Hospital Wear

Starlight Gowns™ are high-quality, fun, soft, and colorful hospital gowns that kids LOVE to wear. They tie on the side (instead of down the back) and include plastic snaps on each shoulder to allow easy access for medical procedures.

Starlight Virtual Reality

The first general use VR solution for hospitals – featuring the wireless Lenovo™ Mirage Solo with Daydream™ – Starlight VR is pre-loaded with 20+ curated experiences to help distract children during difficult medical procedures while they escape into a virtual world. The content allows patients to sit up or lay down and control the game using a remote or their head.

Starlight Gaming

Starlight Fun Center® mobile entertainment units provide kids with hours of fun and, honestly, distraction. Powered by Nintendo® and designed to roll anywhere in the hospital, they allow children to play video games or stream their favorite movies and TV shows from the comfort of their hospital bed or in a playroom with a group of kids.

Starlight Deliveries

Starlight offers an easy-to-use online platform where hospitals can order items directly from our inventory of millions of donated toys, books, games, crafting materials, and other urgently needed products for hospitalized kids and their families.

Starlight Spaces

We transform indoor and outdoor environments by providing an update, partial renovation, or a total overhaul to an existing space. By re-imagining playrooms, treatment rooms, waiting areas, family kitchens, teen lounges, and even outdoor playgrounds, patients and their families can relax and enjoy their time together.
